

# Stalker DSR | Single-Zone Direction-Sensing Radar

# DSR

Rugged. Accurate. Innovative. Stalker.

- Direction-Sensing Technology
- Automatic Same-Direction Tracking
- Strongest / Faster Displayed and Locked
- Waterproof Antennas
- Stalker - Used by more State Agencies than all other radar brands combined
- VSS Ready

## Automatic Same-Direction Operation

Automatically determines if same-direction vehicles are closing or going away. Measures same-direction traffic speeds as simply and accurately as opposite-direction traffic.

# DSR

## Selective Stationary Operation

Monitors specific direction of traffic. Measures closing targets while ignoring going-away vehicles, even if going-away target is closer than closing target.

## True Doppler Audio

In opposite-direction mode, the target's actual speed (not closure speed) generates the Doppler tone, and it always correlates directly with the target's speed.

## Patrol Speed Sensing Standard

One wire VSS for perfect patrol speed.

## Voice Verification for Locked Target

When a target is locked, voice verification alerts the operator which antenna is in use, the radar's mode, and the direction the vehicle is traveling.

## Patented, Digital Ka-Band Antenna

Longer range, faster target acquisition is achieved with the industry's only digital antenna. Improves data transfer and is less susceptible to RF noise.

## Detachable Display

The display separates from the rest of the electronics using an optional cable. Discreetly mount the display anywhere.

## Full-Function Remote Control

Infrared, cordless remote puts complete control in the operator's hand. Strongest or Faster target locking are both available.

## Serial Port

Interfaces with most video cameras, computers and printers.

## Optional Waterproof Motorcycle Components

Durable, accurate motorcycle components for continuous duty in the worst conditions.
